National Work Zone Awareness Week

The National Work Zone Awareness Week (NWZAW) will be observed April 2-6, 2007. The theme for this year's NWZAW is "Signs of Change." Today's work zone points to tomorrow's improved roadways for smoother rides, better traffic flow and safer travel in your future, so always be alert of the signs indicating change. Visit the Federal Highway Administration's [NWZAW Web site](#) for fact sheets and other campaign materials.
