

## **A Winding Road Ahead: Made Safer with the Stimulus and Transportation Authorization**

**The American Traffic Safety Services Association (ATSSA)** applauds Congress and President Obama on passing and signing the economic stimulus package in a timely fashion. This is a great first step towards strengthening our national roadway infrastructure.

**But the job has just begun.** Unless Congress provides significant funding for roadway safety infrastructure in the upcoming highway authorization bill, tens of thousands of Americans will continue to perish on our roadways annually. We must do more.

Let's work together to make safety a priority! ATSSA's member companies truly take our association's slogan to heart: ***Safer Roads Save Lives.***

For more information, contact ATSSA's Director of Government Relations, Laura Dennis, at (202) 454-5246 or [LDennis@ATSSA.com](mailto:LDennis@ATSSA.com)
