ATSSA'S Webucation Center

MUTCD PART 6 -Session I

Introduction to Traffic Control Standards

ATSSA is introducing a new-in-depth *continuing* series of webinars on MUTCD Part 6. Session 1 is a **MUST** for employees that are new to temporary traffic control and those employees who have never had any formal training in this area.

What will be Covered:

- Locations of specifications and standards
- Language used in specification and standards
- State specifications
- Fundamental principles
- Component parts of a temporary traffic control zone

Presenter: Catherine Witt, ATSSA Master Instructor. Ms. Witt has over 18 plus years experience in temporary traffic control; a subject she is passionate about. Ms. Witt travels all over the country teaching ATSSA courses. Ms. Witt consistently receives rave reviews from her students regarding her ability to take technical information and apply it to "real life" situations. Register now for this informative and valuable webinar!

This presentation is available of CD-ROM

ATSSA Members: \$29.95
Non-Members \$49.95
